KAOS GOLD Frequently Asked Questions

1. Who should consume KAOS Gold?

KAOS Gold is a great option for anyone looking for a fast way to gain explosive energy. However, it is not recommended for children under 18, anyone pregnant or nursing, or those sensitive to caffeine.

2. How much caffeine is in one serving?

Each KAOS Gold stick packet contains 120 mg of caffeine.

3. What about sugar?

With only 5 g of sugar per stick packet, KAOS Gold has a whopping 80% LESS sugar than the leading canned energy drink brands.

4. How many calories?

More good news. Each stick packet is only 30 calories, 70% fewer calories than the other leading energy brands. With all the energy and none of the guilt, there's nothing standing between you and the world today.

5. What kind of flavor should I expect?

With a pineapple-citrus flavor, KAOS Gold has a killer taste.

6. How long will 1 box last?

Each box of KAOS Gold contains 15 packets. Many KAOS fanatics reach for a packet more than once a day. Once you get a taste of that great flavor and that crash-free energy, we're guessing you will do the same.

7. What is the best way to take KAOS Gold?

KAOS Gold tastes best consumed cold. Mix one stick packet with 8 to 12 fl. oz of cold water (the official DTC water bottle is perfect for mixing and sipping). Just remember, the mixture is carbonated. Take a couple swigs from your water bottle to make some room for the fizz.

8. Does DTC offer any sort of product guarantee?
